Abstract

The role of nurse medical surgical specialist is as caregiver, researcher, and innovator applied on nursing care of cancer patients that used the chronic illness trajectory model approach, application of evidence based nursing practise in spiritual care program on leukemia patients to reduce depression, and perform innovation group project on educational management for patients undergoing radioactive Iodine 131 in Radioactive Isolation Ward Dharmais Cancer Hospital. The trajectory concept is one of the nursing theories that assist patients and caregivers' empowerment to provide appropriate care in the stage and phase of patient's illness and focuses on palliative care. Palliative care is one of the focus areas of nurse specialist in the field of cancer care that will improve the patient's independence and quality of life. The application of spiritual care program is non-invasive, cheap, safe, and practically in managing the patient's depression status. Education could improve patients' understanding of radiotherapy and its side effects to improve the quality of nursing

Author Fees

This journal charges the following author fees.

Article Submission: 0.00 (IDR)

Authors are NOT required to pay an Article Submission Fee

Article processing charges (APCs) / Article Publication Fee: 500000.00 (IDR) or 35 USD

If this paper is accepted for publication, you will be asked to pay an Article Publication Fee to cover publications costs, the Journal management and publication in general. The authors or the author's institution is requested to pay a publication fee for each article accepted. The fee covers: DOI registration for each paper and checking the article similarity by turnitin; the final result will be sent to authors (by request).

A waiver or partial waiver of author fees may be decided by the editor in case of lack of funding, excessive length of submitted manuscript or other reasonable reasons provided by the author during the submission. The author should clearly declare that he asks for a waiver in the comments to the Editor box during their submission. A waiver is most likely to be denied if it is not asked in this stage. The waiver will have no effect to the review result.
